

wide format inkjet prints

WIDE FORMAT INKJET PRINTS are excellent quality Digital enlargements from jpegs or RGB Tiffs produced with our high end Wide Format Inkjet Printers. Available on Lustre, Glossy, or Matte Litho Realistic Papers. Please specify when placing order. Also available on-line through our **S.O.S.** system. [Please see our web site for more information.](#)

A good rule of thumb is to size files to the desired print size at a resolution between 180 to 360 ppi.

WIDE FORMAT INKJET PRINTS are suited for Architectural Renderings, Point of Purchase Displays, Trade Show Displays, Sale Signs, etc.

WIDE FORMAT INKJET PRINTS have different archival properties than Photographic Prints due to the different types of dyes and substrates that are used. Because of this, we suggest Spray or Liquid Lamination for prints that will be displayed for a long time (see page 15).

Quantity price is per print from **one** image for each size.

art paper inkjet prints

ART PAPER INKJET PRINTS are excellent quality Digital enlargements made from jpegs or RGB Tiff files produced on our high end Wide Format Inkjet Printers. Also available on-line through our **S.O.S.** system. [Please see our web site for more information.](#)

A good rule of thumb is to size files to the desired print size at a resolution between 180 to 360 ppi.

The papers currently available include: **Epson** Textured Fine Art Paper (225 gsm); **Hahnemuhle** Albrecht Durer Watercolor Paper (210 gsm), Torchon Watercolor Paper (285 gsm), William Turner Giclée Watercolor Paper (190 gsm); **Harmon** Matte Fibre Base and Glossy Fibre Base. Please specify when placing order.

ART PAPER INKJET PRINTS are ideally suited for Fine Art Reproductions and Limited Editions.

For larger quantities or different sized prints, please contact us.

Quantity price is per print from **one** image for each size

gallery wraps

GALLERY WRAPS from your jpegs and RGB Tiffs are printed onto **Inkjet Canvas** and are wrapped around 1.75" thick wooden stretchers. **GALLERY WRAPS** are specifically designed for display without any additional framing.

GALLERY WRAPS are available on-line through our **S.O.S.** order system, with guides showing the full size (add 3.5 inches to the nominal size in each direction - for example a 20x24 really needs 23.5 x 27.5 inches of image) and guides showing where the image folds. **GALLERY WRAPS** are liquid laminated or sprayed after printing for extra protection and to prevent fading.

If your image is already one of the nominal sizes, you can use your image editing program (e.g. Photoshop or Elements) to add canvas size to the image in black or white (or any other color or pattern) to get to the desired

WIDE FORMAT INKJET PRINTS (ADDITIONALS FROM THE SAME IMAGE)
